

Welcome to the Ankara University International Pharmacy Programme!

I am exceedingly honored to share information about International Pharmacy Programme. As the first Faculty of Pharmacy in the Republic of Turkey, we offer highly interdisciplinary, very progressive and student-centered programme with our research-intensive elite, academic and professional standards.

The Faculty offers a 5-year Bachelor/undergraduate programme in Pharmacy, and master degree programmes in 7 departments including Analytical Chemistry, Biochemistry, Pharmacognosy, Pharmacology, Pharmaceutical Chemistry, Pharmaceutical Toxicology and Pharmaceutical Technology.

The International Pharmacy programme propose an academic and scientific bridging that prepares internationally educated pharmacists. Students improve skills to care for patients in the context of an evolving profession. Our programme is committed to ensuring academic excellence in pharmacy education and to providing a supportive learning environment.

I sincerely invite you, to explore our website and learn more about all features of the programme.

Best Regards

Prof. Dr. Gulbin Ozcelikay
Dean
Faculty of Pharmacy

ANKARA UNIVERSITY INTERNATIONAL PHARMACY PROGRAMME

Ankara University Faculty of Pharmacy was established in 1960. Our Faculty is proud to be the first Pharmacy Faculty of the Republic of Turkey. Our outstanding faculty members are preparing students for the future which will bring further changes to the practice of pharmacy.

We are one of the most highly rated Pharmacy Faculty in Turkey. The programme offers specialization in medicinal treatment, drugs and their development, uses and effects in respect to natural sciences, health sciences, as well as social sciences. Our undergraduate degree programme is fully accredited.

The International Pharmacy education in the Faculty is maintained under 3 divisions:

- * Basic Pharmaceutical Sciences (Analytical Chemistry, Biochemistry, Pharmaceutical Microbiology)
- * Professional Pharmaceutical Sciences (Interdisciplinary Clinical Pharmacy, Pharmaceutical Botany, Pharmaceutical Chemistry, Pharmacognosy, Pharmacology, Pharmacy Management, Pharmaceutical Toxicology)
- * Pharmaceutical Technology (Pharmaceutical Technology).

According to Bologna agreement we have comparability in the standards and quality of education and all lectures have ECTS credit system. Moreover, Faculty has a successful Erasmus Programme with the agreement of more than 25 Pharmacy Faculties within Europe.

Further information about the lectures for bachelor and master degrees can be obtained from the following link: <http://bbs.ankara.edu.tr/Bolumler.aspx?pno=2>.

Scientific research is also a crucial activity at the Faculty and numerous research projects are being carried out by the academic staff in every departments' research laboratories and in the Central Research Laboratories.

Faculty has a well-equipped Library (approx. 13.800 books, journals, etc.), Herbarium (over 28.000 plant specimens), Computer Lab., Museum, 3 Central Research Laboratories, Student Laboratories for each department, Conference and Meeting Halls, Cafeteria and Hobby Rooms.
